

Are you a practitioner in the Industrial-Organizational Psychology applied field?

Talent Metrics is conducting a study investigating the statistical best practices in the academic and applied worlds of I/O.

If you spend 51% or more of your time on applied projects, such as internal/external consulting, organizational development, performance management, test development, training, HR, etc., please fill out this short survey!

TAKE SURVEY

For your time, you may enter your email to be entered into a drawing of gift cards. Additionally, you can sign up to receive a report of our results once the study has been completed!
